Total	100	96.0

## Comments:

Great job! Where are you going to get music from?

Your introduction wasn't bad to begin with, but now it's better.

Overall description is improved. I'd like a little more detail about Scrabble, but you gave a concise overview.

The additional detail for interfaces is appreciated, especially the new UI screens.

The detail of your functional requirements is very good, especially now they are numbered.

Your non-functional requirements are improved, but they lack detail about some issues and contain functional requirements in others.

Your document is greatly improved.
